RE: Response of Arizona Public Service Company (APS or Company)
Commission Investigation into APS's Political Spending
Docket No. E-01345A-19-0043

Dear Commissioner Kennedy:

In your February 28, 2022 letter to APS CEO Jeff Guldner in this docket, you requested information regarding political spending and related expenses, including advertising and marketing expenses, for the years 2019 through 2021 for APS and its affiliates, including Pinnacle West Capital Corporation (Pinnacle West).

In response to your requests, APS and Pinnacle West provide the following information.

1. *Please provide the Commission with the total number of former Commission Staff and Commissioners that APS has retained in any capacity, including consultants or contractors in the past five years.*

Response: APS is aware of nine individuals the Company has employed or retained as of January of 2017 that were at one time employed by the Commission in some capacity. Of those, seven remain employed or retained by APS today.

2. *Please provide a comprehensive list of "outside lobbying expenses" for calendar years 2019, 2020, and 2021 in the same format APS provided in its June 17, 2019 response to a Commissioner Kennedy letter, filed in Docket No. E-01345A-19-0005 by Barbara Lockwood, except detail for each individual expenditure whether it was included in rates.*

Response: Details of outside lobbying expenses for APS are provided in Attachment A to this letter. APS regularly seeks to inform decision-makers about issues affecting our ability to serve customers with clean, reliable, and affordable energy, and as an employer and purchaser. Although APS customers benefit from this activity, APS does not include lobbying expenses in customer rates. Total APS spending for outside lobbying expenses during the three years of your request was \$1,187,333.

Lobbying expenses for Pinnacle West are included in the political spending totals provided in response to Question 4 below.

3. *Please provide a comprehensive list of "advertising and marketing expenses" for calendar years 2019, 2020, and 2021 in the same format APS provided in the APS filing mentioned above, except detail for each individual expenditure whether it was included in rates. In the "Purpose" column, provide a more detailed explanation of the reason behind the marketing campaign. Non-detailed responses such as "general marketing," "media placement," or "creation of advertising materials" are not acceptable.*

Response: Information on Pinnacle West advertising and marketing expense is provided in Attachment B to this letter. Many of Pinnacle West's agreements with its advertising partners are bound by commercial terms of confidentiality that Pinnacle West must uphold. Therefore, we are providing only a list of the names of Pinnacle West's partners during the requested period (2019 through 2021) without additional expense detail. Total dollars spent by Pinnacle West for advertising and marketing during this timeframe was \$12,568,678. No Pinnacle West advertising and marketing expense is included in APS customer rates.

APS customer education which includes advertising and marketing expense detail is provided in Attachment C.¹ These expenditures include the cost of creating, producing, and placing customer education and advertising media and materials, advertising agency retainers, and publication of required public notices for Commission hearings. APS spending for customer education, advertising, and marketing in 2019 through 2021 was \$21,677,646.

Advertising at APS is largely focused on customer education and outreach including energy efficiency, customer programs, billing and payment options, rate plan education, limited-income assistance, disconnect hold period education, wildfire and monsoon safety, outage management, and other similar communications to help our customers understand and manage energy use. However, APS does not include all advertising and marketing expense in customer rates. For example, general advertising or marketing about APS and its energy goals is not included.

Additionally, customer focused advertising, such as the education and outreach expenses discussed above, are only included in customer rates if incurred during a historical test year. Attachment C indicates those expenses that would be eligible to be included in customer rates during a test year.

4. *Please provide a comprehensive list of "501(c)(3) and 501(c)(4) expenditures" for calendar years 2019, 2020, and 2022, in the same format provided in the same APS filing mentioned above, except detail for each individual expenditure whether it was included in rates.*

Response: Pinnacle West's political spending is disclosed in its annual Political Participation Policy.² Attachment D to this letter is Pinnacle West's April 2022 disclosure,

¹ The expenses listed in Attachment C do not include marketing or advertising for Demand-Side Management (DSM) or Renewable Energy Standard (RES) programs that have been included in the annual approved DSM and RES budgets. Those expenditures are identified in implementation plans and can be found in their respective dockets.

² The Political Participation Policy is also publicly available on the Pinnacle West website at [Pinnacle West Capital Corp. - About Us - Corporate Governance - Political Participation Policy](#).

which includes expenditures for the years of 2019, 2020, and 2021. Details of Pinnacle West's political spending is included in Attachment E to this letter. Total spending in this area by Pinnacle West for the three-year period 2019 through 2021 was \$1,447,344.

These expenses include contributions to political parties, payments to trade associations that may have been used for lobbying or other political activities as reported to APS and Pinnacle West, and independent political expenditures directly or in support of an independent political action committee. Pinnacle West political spending is not included in APS customer rates.

As noted in our prior responses to this question, APS does not make political contributions. For APS's charitable giving to 501(c)(3) and 501(c)(4) entities, please see the response to Question 5 below.

5. *Please provide a comprehensive list of "Corporate Giving" also referenced as "Charitable Donations" for calendar years 2019, 2020, and 2021 in the same format APS provided in its May 9, 2019 response to a Commissioner Kennedy letter, filed in Docket No. E-01345A-19-0005 by Barbara Lockwood, except detail for each individual expenditure whether it was included in rates. This should include details for the APS Foundation.*

Response: The APS Foundation, a privately endowed foundation, supports programs that enhance academic achievement and focus on STEM (science, technology, engineering, and math) with the goal of creating a sustainable workforce for Arizona and attracting and retaining high quality businesses in Arizona. Grants provided by the APS Foundation for the period 2019 through 2021 totaled \$2,885,350 as shown in Attachment F to this letter.

APS believes that corporate giving supports a strong and sustainable economy, and APS is proud to be part of a vibrant Arizona community. APS charitable contributions support various non-profit organizations that enrich Arizona's communities, businesses, and residents. APS's corporate giving to 501(c)(3) and 501(c)(4) charities was \$22,711,037 for the period 2019 through 2021. Details of these expenses are shown in Attachment G.

Please note that these expenses do not represent the total amount of APS's charitable contributions, as APS also gives to charities that are organized under other parts of the IRS 501(c) tax code, not just 501(c)(3) and 501(c)(4) charities.

Neither APS charitable donations nor APS Foundation grants are included in APS customer rates.

6. *Please provide information (see [6](b)) for every APS employee or consultant with a job description related to the following:*
- a. *Corporate Giving, Economic/Community Development, Public/Government/Policy/Regulatory Affairs, Communications, Strategic Partnerships.*
 - b. *Organize information for each employee/consultant applicable to [6](a) in a list as follows: Column 1: Employee/consultant identifier, this can be a number in no way associated with the individual, to protect privacy. Names should be excluded. Column 2: Job title. Column 3: Total*

employee/consultant compensation (all wages, salary, bonuses, incentives, etc.). APS may redact column 3 (employee compensation) in its response and provide this column un-redacted to qualifying recipients separately. Column 4: Percentage of employee/consultant compensation included in rates. Column 5: Short job description. One or two sentences is acceptable, more is welcomed if needed.

Response: APS has compiled a list of employees in positions within the Public Policy and Communications business units, encompassing the job descriptions included in Question 6, where at least a part of the responsibility of that position is to connect directly with external regulators, legislators, media personnel, charitable organization representatives, marketing partners, and other similar organizations and individuals. These APS employees are important to the success and future of both the Company and our customers.

Attachment H provides the list of employees, identified by number rather than name, along with the remainder of the requested information. Confidential salary and incentive information has been redacted in this attachment, as this information is employee specific and Highly Confidential. An unredacted version of that data will be provided to the Commission's Chief Legal Counsel under seal.³

Please let me know if you have any questions.

Sincerely,

/s/ Rod Ross

Pinnacle West Capital Corporation

Political Participation Policy

Updated April 2022 Reflecting 2021 Expenditures

1. PURPOSE

1.1. Pinnacle West Capital Corporation ("Pinnacle West", "we" or "the Company") participates in the democratic process to advance our long-term business interests and the interests of our customers, communities and shareholders. We believe that broad political participation contributes to a strong democracy, promotes good government and encourages sound policymaking.

1.1.1. Our company's principal subsidiary, Arizona Public Service Company ("APS") has the responsibility to provide customers in our service territory with safe, reliable and affordable electricity. Because Pinnacle West and APS participate in a wide range of business activities to fulfill this responsibility, policy decisions at the federal, state and local levels can have profound impacts on virtually all aspects of our business.

1.1.2. Our experience and expertise give us an informed perspective on how public policy can affect our company, our customers, our communities, and Arizona's energy future. We have a responsibility to our customers, communities and shareholders to participate in the political process, when appropriate, so that our perspectives are heard and so that we can develop productive working relationships with governmental decision-makers.

1.2. The purpose of this Policy is to promote compliance with all applicable federal, state and local laws, rules, and regulations surrounding political contributions by Pinnacle West in a manner consistent with our values. This Policy also describes our decision-making and oversight processes for political spending and for reporting of political contributions, in which processes both management and our Board of Directors play important roles.

2. POLICY STATEMENTS

2.1. As one of the largest and longest-serving local businesses in Arizona, Pinnacle West takes its commitment to corporate citizenship seriously. Being a good corporate citizen may

include being informed about issues, encouraging our employees to volunteer and participate in their communities, speaking publicly about the issues of the day, sponsoring a political action committee and, where permitted by law, considering the contribution of corporate funds to political candidates, political parties, political action committees, and organizations that engage in political activities. These activities may also include independent expenditures, or the sponsoring of a political action committee that engages in independent expenditures, in relation to elections of candidates to office, get-out-the-vote efforts, and ballot initiatives and referenda. In general, a political expenditure is independent when it is not made in cooperation, consultation, or at the request or suggestion of a candidate, a candidate's agent or authorized political committee, or a political party.

2.2. Many factors guide our political contribution decisions. In general, we may support candidates and organizations that share an interest in public policy that furthers our business objectives and promotes our mission of creating a sustainable energy future for Arizona. The Company's contribution decisions are based on what is in the best interests of Pinnacle West and not based on the personal preferences of our executives.

2.3. We do not make corporate contributions to political candidates or office holders where prohibited by law. Arizona law prohibits companies from making political contributions to candidates for Arizona offices. Under no circumstances will any political contribution be given in anticipation of, in recognition of, or in return for any official act.

2.4. We may contribute to entities organized and operating under section 527 of the Internal Revenue Code. These organizations are established primarily for the purpose of influencing the outcome of elections of candidates for public office. We may also use corporate funds to make independent expenditures or to contribute to organizations engaged in lobbying or political campaign activity or that make independent expenditures at the federal, state or local level, as permitted by law.

2.5. Pinnacle West may directly sponsor a registered political action committee that engages in independent expenditures concerning specific candidates, initiatives, or referenda. Pinnacle West is committed to ensuring that any separate sponsored political action committee meets or exceeds any reporting requirements to the various governmental agencies that collect contribution and expenditure data.

2.6. Pinnacle West may participate in federal, state, and local issues through membership in trade associations, which we join to represent various business and industry interests. In addition, we actively promote the economic health of the jurisdictions we serve through our activities with chambers of commerce. Pinnacle West supports many charitable and non-profit organizations that support a variety of community and educational endeavors. These organizations, in turn, are at times actively involved in promoting social welfare missions to our elected leaders. Depending on their roles, any of these organizations may be subject to lobbyist registration and disclosure reporting obligations, with their reports made public by federal and state agencies overseeing lobbying activities.

2.7. Pinnacle West discloses its political contributions if required by law. In addition, we will provide a voluntary annual report of contributions subject to this Policy as set forth in Section 5 below. The report will be posted to our website as part of this Policy not later than April 15 of the succeeding calendar year. We expect those organizations in which we are members or to whom we provide contributions to meet their own obligations to report the Company's contribution to the appropriate government authorities.

3. THE PINNACLE WEST POLITICAL ACTION COMMITTEE

3.1. Pinnacle West encourages its employees to be active members of their communities. Along with participation in civic, charitable and volunteer activities, this includes participation in the political process. All eligible employees of Pinnacle West may make voluntary contributions to the Pinnacle West Political Action Committee ("PNWPAC"). The PNWPAC is a voluntary, nonprofit, non-partisan political association sponsored by Pinnacle West to provide an easy and effective means for eligible employees to become politically involved if they wish to do so.

3.2. The PNWPAC is directed by a board comprised solely of employees, which makes and approves all decisions regarding political contributions and budget. Potential contributions are reviewed by a five-member PNWPAC executive committee, which makes recommendations for contributions to be considered by the PNWPAC board. The articles of organization of the PNWPAC can be found [here](#). Applicable law permits administrative support of PNWPAC from Pinnacle West. PNWPAC provides timely disclosure of its political contributions as required by law.

3.3. Pinnacle West encourages employees to participate in the political process personally by voting and by supporting candidates of their choosing. Such participation is not in the Company's name or on its behalf. Employees will not be reimbursed for personal political contributions or expenses, either directly, through compensation increases, or otherwise.

3.4. Some Pinnacle West employees choose to serve their communities by holding public office. We encourage these employees and appreciate their spirit of public service. Employees of Pinnacle West who wish to campaign for, or serve in, public office must first notify their supervisor and the Vice President of State and Local Affairs.

3.4.1. Employees are not permitted to campaign on work time; nor can they use company resources to further their campaigns. Employees must clearly communicate that they are acting as private individuals, that their views are their own, and that they are not representing or endorsed by the Company.

3.4.2. Employees who hold public office must recuse themselves from matters directly involving Pinnacle West. If an employee in public office is uncertain whether an issue directly affects Pinnacle West, he or she should contact the Senior Vice President of Public Policy.

4. OVERSIGHT

4.1. Corporate contribution decisions are made primarily by our Vice President, Federal Affairs, and Vice President, State and Local Affairs, based on the guidelines and objectives described in this Policy. These executives typically receive input from other members of our senior management team, including our Chief Executive Officer.

4.2. During each calendar year management reviews with the Corporate Governance Committee of the Board of Directors its anticipated governmental affairs strategies for the year, including the priorities for the Company's political expenditure and lobbying activities. During the year, management periodically reports to the Corporate Governance Committee on the progress of the Company's strategy, including any significant activities not encompassed within the initial strategy discussion. Following each of its meetings, the Corporate Governance Committee provides a summary to the Board of the matters involving political activities, which were discussed at the meeting. In addition, as part of its

reporting responsibilities to the Board after year-end, management summarizes the actions taken in furtherance of its governmental affairs strategies during the year.

4.3. At least annually, the Corporate Governance Committee reviews this Policy and recommends to the Board any revisions it deems necessary. Our Board's oversight of our governmental affairs strategy ensures compliance with applicable law and alignment with our policies and Code of Ethics and Business Practices.

5. ANNUAL REPORT OF POLITICAL CONTRIBUTIONS

5.1. In 2021, Pinnacle West made the following contributions to political parties, political action committees, candidates for political office and other entities organized and operating under section 527 of the Internal Revenue Code:
